Hello!

My name is Teri Denison and I'm the founder of Denison Ridge. Hubby Les and I ran Denison Ridge - Weddings & Events in our backyard for over eleven years.

I started a home business blog and created an eBook because I've found many young couples, and a few empty nesters struggle with financial issues.

My passion is to share how your property could bring in extra income by running your own event venue business.

There are many advantages to running a business on your property which I discuss in my resources.

One of the things my readers love most is my honesty in presenting the facts, because being informed is important to being successful.

I wanted to take a second to say hello and welcome, and to let you know that I'm thrilled that you've decided to start this exciting adventure!

It's my pleasure to provide resources and information to help you get started – read on.

Wedding Day Staff Handbook

Having the staff/children/family organized on wedding day will make things run smoothly, keep your timeline on schedule and keep overwhelm at bay.

You see, as a wedding venue owner you will often deal with the same issues I did, and feel the same way. It's probably what led you here in the first place.

And because I know that feeling all too well, I wanted to create some sort of resource that could help you start out on the right foot, by knowing what areas you'll need to address.
